HERE'S the POINT!

By SPENCE HELD

Remember Professor X and his planetariun.?

The tall figure striding about the campus, or patiently explaining the mysteries of astronomy and chemistry to his crowded classes, will be recalled without difficulty by many of his former students residing in the Peninsula area.

He was a quiet, soft-spoken, almost shy gentleman of the old school. Everybody liked him.

* * *

Like many good professors, X was absent-minded. Concentrating on the immensity of the universe, his mind reaching out into unmapped space for new worlds to conquer, he sometimes forgot the affairs of the moment and was jerked back to earth with a dull thud.

Or a hollow clank, as the case might be.

In his astronomy classroom he kept the solar system conveniently at hand for purposes of illustration. Hanging on cords from the ceiling was an assortment of brass globes; the largest was the Sun, and dangling about it were others of various sizes representing Jupiter, Saturn, Uranus, Neptune, Earth, etc.

* * *

The scene: Professor X,, his head among the planets, stands before the class in beginning astronomy. He points to his planetarium.

"The planets revolve around the Sun," he says. "Like this." (He grasps one of the globes—Earth—and sets it whirling; then another and another until all are traveling their orbits.)

The class watches, fascinated. Professor X resumes his lecture. But his mind is far away, millions of miles away.

* * *

Unconsciously he steps backward into the path of the swooping planets. CLANK! Jupiter collides with his cranium. CLANK! Saturn hits him head-on. CLANK! CLANK! CLANK! Mars, Uranus and Neptune make contact as the bewildered professor tries to duck . . . CLANK! He is back to Earth.

United Fund Residential Drive Collects $15,924 In This Area

United Fund house to house campaign volunteers in the Ocean Beach-Point Loma area have joined with drive units throughout the county in a special two-week "crash program" aimed at putting the drive over the $3,353,678 base objective — more than the amount raised by all campaigns last year.

The campaign has reached the midway point. The crash program, set for Dec. 2-13, is the period in which all drive volunteers are asked to redouble their efforts and finish their campaign assignments.

The over-all campaign to provide operating funds for nearly 100 health, welfare and guidance services, has now reached $2,100,229, drive leaders reported.

The residential campaign here, under the direction of Mrs. James Marlow has collected $15,924 for 84.6 percent of an $18,830 base quota.

Tuesday marked the 30th day the doorbell ringers here have been in the field, Mrs. Marlow reported. She said campaigners for last year's United Success Drive, in the same period, had raised $10,924.

The need is even greater this year since the Red Cross, Multiple Sclerosis Society, all nine Community Chests in the county, and many other organizations have joined in the single United Fund drive.

Drive chairman, Rabbi Morton J. Cohn, warned that if the United Fund fails, the community will again be faced with costly separate drives.

SIGN LANGUAGE

The Point Loma woman who was undergoing dental surgery made out a list of remarks she thought would be appropriate while the dentist was doing his work.

"I can't talk with my mouth stretched open." she stated. "So if I hold up one finger that meant 'Stop!' Two fingers mean 'You dirty dog!' Three fingers 'Just you wait.' Four fingers mean 'I hate you.' Five fingers mean 'I won't pay my bill if you don't stop hurting me!"

The dentist looked over the list carefully and said: "In this case I'll remember to stop work when you wave your whole hand at me."

Later as he put his tools away he remarked, "By the way, after the novacaine wears off you'll have quite a bit of pain. Here's a prescription for some relief."

He handed her a piece of paper, smiled and held up three fingers.

TRUE LOVE

After being admonished severely by her husband the irate La Jolla wife yelled, "What do you want me to do? Shoot myself?"

"Don't mimimize the situation", her husband calmly replied.

AD-VENTURES

Comes now the holly daze . . . People, like newspaper stories, sometimes get their heads all mixed up . . . A breakfast cereal company has a new deal. Inside the package you find a bright red toy. You send the box top off for the cereal.

SO WHAT'S NEW

For family fun and creativity, make a batch of cut-out cookies for the holidays. Furnish the family wtih art brushes and small bowls of different colored frosting. The newly-appointed "artists" will decorate the cookie Santa Clauses, Christmas wreaths and stars in high fashion. You also might have some cake decors on hand to add interest and highlight.

Of course, if you're a real artist at heart you'll use those beautiful decorated cookies to make yuletide mobile to hang in the kitchen.

BACK TO THE JUNGLE

The snug-fitting leopard jacket was stunning and the owner was proud of her "new look." Then one day as she walked down the street she heard a soft chant in her direction: "Hold that tiger. Hold that tiger."

HEARD AND LIKED

"I used to worry about not being a big success. Now I am learning the wisdom of gracious acceptance. I am finding peace with myself somewhere between my ambitions and my limitations."

HITHER, THITHER, YON

A "real live doll" had Thanksgiving dinner at Kona Kai with Mr. and Mrs. George Scott and their handsome small son. The "doll" was their small blonde daughter, dressed in a black velvet coat, matching bonnet and carrying a white fur muff. White lace ruching peeped out around her face from the bonnet and highlighted her soft blonde curls.

Ticklers By George

"I don't know how it's going to work out, but it'll be a lot of fun while it lasts!"

Emergency Radio Test Scheduled

A Conelrad Emergency Broadcasting test will be held in this area Monday, Dec. 9 from 1 to 1:30 a.m., Roy Butler, San Diego assistant Civil Defense director, announced.

During this 30-minute test all regular radio and TV broadcasting will be suspended. Citizens who wish to see how well they would receive emergency Civil Defense information in case of an enemy bombing attack should tune their home or car radios to either 640 or 1240.

"Listeners will find the Conelrad broadcast weaker than their regular signal," Butler explained. "Also it is sent out in quick succession from different stations grouped in what we call a cluster, and therefore will vary in loudness and clearness.

Individual householders or motorists who listen to the test are urged to write the results to any of their local radio stations. The combined findings of special monitoring teams and the public may be of great value to Civil Defense authorities."

The reason for sending the Conelrad message signal from different stations every few seconds and the reduetion in strength of the signal is to prevent approaching enemy planes using radio broadcasts to guide them to a target.

Local radio stations participating in the test are KGB, KCBQ, KFMB, KFSD, KSDO and KSON.

Kiss 'em goodbye, Mom...

but be sure you see them again!

Children home alone, the youngest ones especially, would be helpless to escape if fire should strike while you're away.

This tragedy happens every day and actually is the cause of one out of every three child fire deaths.

Never leave small children alone. Even if it is necessary to leave the house for only a few minutes ask a neighbor to stay with the children. And whenever you must go out for a longer time, leave the children in the care of a baby sitter who not only has been told what to do in case of fire but who is also physically and mentally capable of carrying out such instructions.

HEALTH FOR ALL

He went to a "Western" at the local movie palace the other night. Wide screen, full color, and all the cliches we expect and couldn't do without. But we came away with an idea for a new disease. Hollywood needs one, and maybe we can make our fortune out of it.

The trouble with the old familiar diseases is that the public is getting too knowing about them. And when they catch one bad mistake they are likely to lose faith in the whole story.

In this particular Western it was consumption — TB — the good old standby of drama. The hero had a pal who coughed all through the film — not that it interfered with his aim. This character lived dangerously—he was going to die any day, and he didn't want to die in bed. One day, it caught up with him. Big scene where he coughs out his lungs and collapses on the floor.

"Can't you see he's dying?" the girl says when his friend rushes in demanding his help in a shooting match with the bad guys. But he doesn't let his friend down. In a few minutes he's leaping over fences and dodging bullets. When it's all over, he feels better than ever.

TB is a disease with many unusual qualities. But even so, TB couldn't fit the pattern of that story. No known disease could.

So we'll have to invent a new one for Hollywood, one that will call up sympathy for the hero but won't cut down on his riding, one that won't disfigure his beauty or waste his muscles, one that will linger long enough to keep the audience worried troughout the picture but can still be cured at the last minute.

Mince and Pumpkin Pies Flavor Holiday Scene

BY DOROTHY MADDOX

MINCE pie is always part of the Christmas picture. But today's version is much easier to make and tastes just as good.

Quick Mince Pie

Use either ready-to-use mince meat in a 28-ounce jar, or a 9-ounce package of condensed mince meat. (In latter case, break the condensed mince meat into saucepan and add 1½ cups water, cider or coffee. Stir over heat until lumps are broken down; then boil quickly for one minute. Cool before using in pie.)

Line 8-inch pie plate with your own favorite pastry recipe or use a packaged pastry mix. Spoon the mince meat into the shell. Moisten edge of pastry with water. Cover with top crust, trimming off excess pastry and pressing edges together.

Brush top of pie with milk for better color. Slit upper crust several times to permit escape of steam. Bake in hot oven (425 degrees F.) for ½ hour or until crust is golden brown. Serve warm with cubes of cheese.

Garnish quick mince pie with a swirl of pastry rope. This version is easy to make but tastes as good as any.

Pumpkin Chiffon Pie

One envelope unflavored gelatine, ½ cup firmly packed brown sugar, ½ teaspoon each, salt, nutmeg and cinnamon, ¼ teaspoon ginger, 1¼ cups evaporated milk, 2 eggs, separated, 1½ cups canned or cooked pumpkin, ¼ teaspoon cream of tartar, ¼ cup granulated sugar, 1 9-inch baked pastry shell.

Mix together gelatine, brown sugar, salt and spices in top of double boiler. Stir in evaporated milk and egg yolks; mix well. Place over boiling water and cook, stirring occasionally, until gelatine dissolves and mixture thickens slightly, about 6 minutes.

Remove from heat; stir in pumpkin. Cool, stirring occasionally, until mixture is chilled and mounds when dropped from a spoon.

Beat egg whites until foamy. Add cream of tartar and beat until stiff but not dry. Gradually add sugar and beat until very stiff. Fold into pumpkin mixture; turn into prepared baked crust. Chill until firm. Garnish with whipped cream and sprinkle with a little nutmeg or finely chopped candied ginger.

Woman's Club

The Madrigal Choir of Point Loma High School will present a program of seasonal music, according to the program chairman.

Again the members of the Club will fill the barrels with "Toys for Tots" which are distributed by the U. S. Marine Corps each Christmas to the children.

The Literature Department of the Club will meet Monday, Dec. 9 at 1 p.m. in the clubrooms for the annual Christmas party. There will be assembly singing of carols and the story "Why the Chimes Rang," by R. M. Alden, will be read. Mrs. C. E. Hunter and Mrs. W. E. Brautigam are hostesses.

The Arts and Crafts Dept. of the Clnb is sponsoring the annual Christmas bazaar, luncheon and bake sale Friday, Dec. 6 at 10 a.m. in the clubrooms.

Mail Your Cards & Gifts Early For Delivery Before Christmas

Postmaster William E. Krenning said today, "Early mailing of all Christmas cards and gifts is the biggest single factor in getting all of the mail delivered before Christmas. Post Office facilities have been expanded, extra help will be available, and everything is geared to handle a record Christmas mail in San Diego this year."

The Postmaster suggested that you take special care in preparing gift packages for the mails. Make sure that all addresses are eligible and complete.

"If you have any articles of unusual size or bulk, better check with the Post Office before attempting to mail them," he warned. "The limit on size and weight of packages varies, depending on where you mail your package.

"When wrapping gifts for mailing, it is always better to use corrugated cartons, especially where there are a number of various sized objects in the shipment. Use plenty of wadded tissue or newspaper for extra protection against shock, and securely wrap each package or carton in heavy paper, and then tie it with strong cord.

"Be sure to include an extra label with your return address and the recipient's address inside the carton or package before it is wrapped.

"Another good idea is to place a piece of transparent cellophane tape over the address portion of the label on your package to prevent defacing in transit, and always make sure to include the recipient's full name, street address, city, zone and state.

Bar Association Dinner Friday

The San Diego County Bar Association will hold its annual dinner Friday evening, Dec. 6, in the Palm Room of U.S. Grant Hotel, Richard P. McNulty, vice-president, announced. The dinner is open to all members of the Bar group and the judiciary.

The annual dinner is patterned after similar functions in other organizations, in that a highlight is the lampooning of various dignitaries within the profession.

McNulty said that a special committee has been hard at work on this phase of the evening's entertainment for several weeks. "No one is immune," he said. "In the past we have run the gamut of public figures, and the committee in charge promises that this year will be no exception."

Tickets will be on sale at the door the evening of Dec. 6 to accomodate those who have not obtained them in advance.

Bible Comment:

The Church's Duty Is to Exemplify Christ's Teaching

NO group calling itself a church is a church in reality unless the spirit of Christ is there.

For example, suppose that a group of people were to set out purposely and in fellowship to embody in their community the spirit of some great man—say, Abraham Lincoln.

We could not think of any group in a community really embodying the spirit of Lincoln if they were narrow-minded and bigoted, or if they were characterized by malice or vengeful feelings.

To embody his spirit, the group would have to manifest the qualities of Lincoln, in tolerance, magnanimity and all the things that his friends and foes recognize as noble in him.

Is this not a simple illustration of what the church should be in the community—the body in which the spirit of Christ lives and in which the purposes and works of Christ are manifest?

The church of Christ should excel in kindly fellowship and moral discipline. It should tell of Christ, spreading the gospel to all mankind. It should lead in teaching and prayer. It should teach brotherhood as did St. John when he said, "Little children, love one another."

It should foster missionaries. It should teach of the mystical body of Christ as binding all Christians in worldwide union with the Father and Son.

What a marvelous program and mission for the church! What a power the church can be in any community when in reality it embodies the spirit of Christ in all [illegible]

CHRISTIAN SCIENCE LESSON-SERMON

"God the Only Cause and Creator" is the subject of the Lesson-Sermon in the Christian Science churches on Sunday, Dec. 8. "Every house is builded by some man; but he that built all things is God," declared Paul to the Hebrews (3:4) in the words which comprise the Golden Text of the sermon.

From the words of Isaiah a selected passage in the lesson reads, "For thus saith the Lord that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I am the Lord; and there is none else" (45:18).

Military Ball For ROTC Set Friday Night

The 16th annual Military Ball, top social event of the year for the ROTC battalions in six city high schools, will be held Friday, Dec. 6 at 8 p.m. at the Balboa Park Club.

Highlight of the traditional semi-formal ball, planned and sponsored by the Cadet Club Council representing the six schools, will be a ceremony formally presenting and honoring the ROTC queen from each school.

The queens, each elected by vote of the ROTC cadets in her school, are Ferne Dumont, San Diego High; Bonnie Cowie, Hoover High; Marcette Martinez, Point Loma High; Wendy Treschern, Kearny High; Aletha McGregor, Crawford High, and Sandra True, Mission Bay High.

Because it involves students from six schools, the Military Ball is one of the largest student social events of the school year.

Maj. Edward S. Klaniecki, professor of military science and tactics, is army officer in charge of the high school army reserve officers' training corps. Officers of the Cadet Club Council include Cadet 2nd. Lt. Bob Tessler, Point Loma High, assistant secretary.

Full-Time Christmas Employment Policy Explained By City Schools

Qualified senior high school students will be excused one week in advance of the Christmas vacation period to accept full-time Christmas season employment, according to John D. Wimmer, city schools coordinator of junior employment.

Schools will remain in session through Friday, Dec. 20 this year, but students who qualify for employment will be released from classes Monday, Dec. 16. Prior to that date they may work only two or three hours after school, as their work permits indicate, Wimmer said.

In order to be released for full-time Christmas employment,, Wimmer said each student must have advance approval of his counselor and teachers, must agree to make up classwork missed, must have both subject matter and citizenship grades of "C" or better, must have written parental approval, and must show a written promise of employment.

The purpose of the release policy is threefold, Wimmer said: To give students a chance to earn extra money at Christmas time when there are many temporary jobs available in stores; to cooperate with merchants who have need for extra help at this time, and to allow students to gain valuable work experience.

Employers who need temporary help during the Christmas season should telephone the Junior Employment Service at CY-8-4681, Wimmer said.

The United States has released a fourth of the 40 million dollars in Egyptian assets frozen here since Cairo's seizure of the Suez Canal.

Bible Comment:

The Nativity Story Signifies the Hope Of All Mankind

THE story of the Nativity never loses its power to fascinate.

Shepherds in the field, watching over their flocks, had an amazing experience as angels appeared to them and announced the birth of the Messiah. This was no chance occurrence. These shepherds were undoubtedly devout men whose souls had long been filled with the hope of the coming of the Messiah who was to redeem the world.

The shepherds were not only men of devotion; they were men of action, too. They went immediately to Bethlehem to find this newborn babe of destiny. They found what they came seeking.

But here their faith must have been sorely tested. For many Jews had come to hope for a Messiah rich in a worldly as well as spiritual way. They had hoped for a leader who would stamp out opposition and make them temporal leaders. Christ was rejected by many because of this.

Instead of the glory they had expected, they found a babe lying in a manger because there was no room at the inn. But they were not daunted by appearances. They knew that God moves in mysterious ways and that He is not a respecter of persons.

They saw Mary with her child. Again it was not by chance that Mary was selected to be the Mother of God. Her devotion and faith had well prepared her. Yet it had not been without some misgivings that she received the message from the Archangel Gabriel of her impending momentous role. Because Mary had taken a life-long vow of celibacy.

But she submitted to the will of her Lord: "Not my will but thine be done."

Can we read the Christmas story and study it in the light of the whole life and death and resurrection of Christ and bring these things in relation with our present world of joy and sorrow? The peace of Bethlehem that blessed night prefigures the peace all men can one day know.

PhoneCo. Amends Rate Application

Pacific Telephone and Telegraph Company has filed an amendment to its application for a telephone rate increase now pending before the California Public Utilities Commission. Unchanged is the 6.9 percent rate of return sought by the company in its original application.

The amendment seeks to offset higher wage costs. Most telephone employees have been granted wage increases within the last five weeks.

In its amended application, the company is asking to increase monthly rates for basic telephone service throughout the state. The original rate application, filed August 7, did not ask for any changes in basic rates.

Monthly increases for residence customers would be five cents on four party, suburban, and farmer line service, ten cents on all two party services, and 35 cents on one party lines. The increase on business services would be a flat 35 cents per month. Overall effect of the amendment would be to increase company revenues by about $12,000,000 annually.

Max B. Schwartz, local manager for Pacific Telephone, commented on the effect of the amended application in San Diego.

"Many of our residence customers here would pay ten cents or less additional per month for their service. For example ,a customer with a two-party flat rate line would pay $3.60 monthly instead of the present $3,50, not including tax."

James S. Cantlen, vice president and general manager for Pacific Telephone, made this statement:

"This supplementary application is necessary if we are to realize the rate of return asked in our original application. We believe this is the minumum return we can operate on under todays conditions and still carry out the expansion and improvement program that is so important to California's future."
